

Slim Line Compact Worktops

Slim Line is a collection of 12mm compact worktops with a colour-coordinated core, ideal for luxury kitchen designs. It comprises specially selected designs that bring sophisticated style to any kitchen.

All Slim Line products have improved resistance to abrasion and moisture, meaning they not only look great but they perform well too. With no need for additional edging or surface finishing, they are perfect for bespoke design projects.

Designed with a complementary core in white, grey, or black, this stunning collection provides a versatile solution with a modern appeal to stand up to everyday use. These compact worktops are functional, stain and heat-resistant, hygienic and easy to clean, with antibacterial properties, and highly water resistant too!

Only available in Slim Line:

K595 SU Pietra Belvedere

The delicate white veins of this decor contrast against a dark grey background, giving Pietra Belvedere a truly stunning authentic look. It can be successfully combined with colours, natural light woods and even concretes to create outstanding interior solutions.
